PRESIDENT'S MESSAGE Rob deWit

I hope that all had a wonderful holiday season. Now that the holidays and the barrage of college football are past, it is time to get back into our routines. Our next meeting is January 10, 2007. Social hour begins at 5:30 p.m., dinner at 6:30 p.m., meeting and program to follow. We would like to see a wonderful turn out at the January meeting. Thank you to all of you that attended our December meeting.

The 2006 ASHRAE winter meeting and show is scheduled for January 27-31 in Dallas. Get your registration and reservations ASAP if you are interested in attending.

See you at the Westward Ho on Wednesday.

January will be YEA (Young Engineers in ASHRAE) month. We encourage all of you to bring or invite any young engineer under the age of 30 to attend our January meeting. ASHRAE is committed to advancing its programs and services for young members through helping them build their professional foundations. Some of the benefits for a YEA:

1. **Technology Acquisition** - The latest information about new products, theories, practical applications and case studies is presented at chapter, regional and Society meetings.
2. **Professional Growth** - By providing opportunities for the people driving the industry's technical future, ASHRAE involvement will help enhance communication and management skills.
3. **Networking** - ASHRAE is a great place for networking with HVACR industry professionals. Even competitors who compete fiercely on bid day can enjoy the camaraderie on the neutral turf of an ASHRAE meeting.
4. **Career Advancement** - What better place to make it known you are looking to hire, or looking to be hired.

This is a great program to get our young engineers involved in ASHRAE.

For additional information, please go to www.ashrae.org, go to members, and then click on YEA.

CTTC Chair, Sean O'Connor

The speaker for the next ASHRAE meeting is Bruce Radant with Greenheck. He is a Sr. Product Specialist in Greenheck's Kitchen Ventilation Division. Bruce has over 20 years of experience in the kitchen ventilation industry. Bruce has been involved in the design, application and installation of kitchen ventilation systems. Bruce has spoken at numerous local ASHRAE chapters and industry related functions. Bruce attended the University of Wisconsin. Bruce sounds like a good speaker and I appreciate Climate Systems for lining up this speaker. Hope to see you all there.

Sean

Special Events Chair, Jeff Rentschler Friday, February 16, 2007 Let's Murder Marsha

A happy housewife named Marsha, hopelessly addicted to reading murder mysteries overhears her loving husband discussing her upcoming birthday surprise with an interior decorator. To her ears, though, it sounds like they are planning to murder her!

Click on Olde Towne Theatre's website www.oldetownetheatre.org for further information.

Doors open at 6:00 pm and dinner begins at 6:30. Cost is \$34.00 each

If anyone wants to sign up prior to the January meeting, have them e-mail me and I will include them on the sign sheet that I will put out at the meeting.

Please make all checks payable to **ASHRAE**.

If any questions, give me a call. Thanks, Jeff Rentschler.
